EDUCATION

Bilateral Exchange - Bachelor's in Computer Science — 2023 - 2023 summer
Universiti Malaya, Kuala Lumpur, Malaysia

During a semester abroad in Malaysia, I engaged in in-depth studies in Cyber Security and Social Informatics, furthering my knowledge and skills in these cutting-edge fields.

Bilateral Exchange - Bachelor's in Computer Science — 2021 - 2021 summer/winter
National Sun Yat-sen University, Kaohsiung, Taiwan

During my one-year exchange study, I took diverse courses like Python programming, Scientific Computing in Python, and Beginner Mandarin. For my final project, I built a grade prediction model using Python, enhancing my technical skills

Bachelor's in Information Management — 2019 - 2023
University of Hradec Králové

Field Computer Networks — 2019 - 2023
High School and College of Applied Cybernetics s.r.o.

ABOUT ME

As a motivated and detail-oriented Quality Assurance Engineer, I am seeking a challenging role where I can further cultivate my expertise in quality assurance. With a background in multiple testing frameworks and proven prowess in backend application and REST APIs integration testing, I aspire to join a team where I can collaborate to enhance the quality of software applications. My career ambition is to consistently expand my understanding, refine my abilities, and lead the way in establishing new industry standards for application quality.

TECHNICAL SKILLS

Proficient At:
- Javascript, Typescript, Python
- Jest, Playwright, Cypress, Pytest, JUnit 5
- Docker, Kubernetes
- MongoDB
- CircleCI, Github Actions
- Google Apps Script
- Postman

Exposure To:
- Java
- SQL, GraphQL

LANGUAGE ABILITIES

- **Czech** - native speaker
- **English** - B2
